MODERN RUSTIC™

The unmatched artistry and raw beauty of nature can be found in the natural elements of Modern Rustic.

TRAVERTINE

Photo realistic image of stacked stone has the look of a rustic stone wall or this fabulous pattern created to simulate the look and feel of the real thing. This is the easy way to get that perfect fireplace surround or stone accent at a fraction of the cost and without damage to your walls. This luxurious organic trend accent is offered in a natural color palette created to enhance every décor style from classic to modern.

BLOCK

10.25" high by 13" wide blocks form the image of natural sandstone in a softly textured vinyl for this all-over pattern which simulates a masonry wall. Bring a touch of the organic and the depth of texture to any room using this structural print for a fraction of the cost. Perfect when used as a focal wall or for the entire room; it brings warm vintage charm to any space.

MARBLE

Deep veining and patterning webs bring aged elegance to the luxurious luster of marble. Associated with power and wealth through the ages, marble remains an architectural design staple today. Use this array of subtle realistic organic palette choices for the traditional fireplace surround or entry way you've always dreamed of.

WOOD

Photo realistic images create the illusion of the real thing in this pattern which simulates the look of milled wood panels. Color choices are available in seven amazing wood stain variations that will fool the eye. The warm organic feel of real wood coupled with the deep charming elegance of traditional design is sure to become a new modern classic.

SUEDED CORK

A brushed hand and all the weathered beauty of real cork are coupled to create a dynamic new mix of organic and contemporary with wide ranging implications. Backed by either dynamic gloss or trend right metallic, this organic and modern mix achieves a balance perfect for the warmth of home and the sophistication of the American lifestyle. Use this pattern wherever the space demands dramatic impact or subtle texture because it is perfect for both.

RUSTIC BRICK

This realistic vinyl embossed brick pattern simulates the look and roughly textured feel of a brick wall with the washability and versatility of wallpaper. Use the four color palette to define space and add architectural detail to any room in your home. Perfect for a fireplace surround or cozy kitchen nook, this warm earthy edition used as an accent wall or beyond is enchantingly easy and very versatile.

RAISED WOOD

Warm masculine wood meets modern diversity in this textured wood pattern with the look and feel of the real thing. Retro inspired milled panel pieces have the rich finish of luxury and the color palette diversity of true wood grain. Use it as an entire room accent or the classic backdrop to a library or den area.

KRINKLE

Horizontal folds and creases create depth and textural interest in this high embossed vinyl created for space that need not be dominated by pattern but loves the designer touch. Create the ultimate gallery wall, upgrade a narrow hall or define a small entry with a warm textural palette. Crinkled is also available in metallic silver for that striking dynamic space, such as a powder room or foyer.

BRICK

A masonry brick wall is an architectural staple. Known for durability, beauty and warm texture, brick is an American classic. Receive the benefit of both design beauty and vinyl cost and durability in this photorealistic brick pattern designed specifically with an accent wall of fireplace surround in mind. Warm and lovely, it creates the classic image of hearth and home.

BAMBOO

Surround yourself with natural beauty and the exotic quality of this Asian inspired texture simulating the look of large bamboo stalks. This pattern creates a forest of irresistibly peaceful foliage with the overall impression of organic texture. Whether used sparingly or lavishly, this pattern transcends style choice and partners well with both classic and transitional styling in the soft nuances of a natural color palette.

GRASSCLOTH

Now the high end designer styling of real grasscloth can be acquired for a fraction of the cost. Texture and beautiful organics partner in the most realistic faux grass available without fear of fragility, color fastness and durability. Seven subtle color shadings are sure to compliment any styling or home palette, so wrap yourself in the rich luxury of carefree grasscloth!

RUSTIC WOOD

Wide barn board with the weathered character and wood graining we all love comes to life in this highly textured version that simulates real wood. Bring rustic charm to a chair rail or create drama for your fireplace wall with this beautiful durable vinyl. The palette for this versatile pattern comes in realistic stains or weathered painted additions and has the ability to upgrade any décor.

RIVER ROCK

The beautiful look of natural river rock in organic shades form a masonry wall effect in this all-over photorealistic texture pattern. Dynamic and easy to use, this powerful design statement was created to bring the outdoors in for that finishing touch to a room, entry or accent wall. The warm easy lifestyle associated with the best of American design is enhanced and created here with dazzling luxurious effect.
