

NANTUCKET™

YORK
WALLCOVERINGS

Cobblestone streets, lighthouses, cedar shake shingles and gaslight lamp posts all add to the warmth and historic charm of this tiny crescent shaped island located just south of Cape Cod, Massachusetts. Large classical homes nestled between charming seaside cottages, picturesque landscapes, lush gardens and salt marshes with cooling ocean breezes all combine to create the perfect exclusive summer destination. The Nantucket collection of fine wallpapers takes inspiration from the stunning beauty and classic appeal of this unique community.

DAMASK

Elegant, refined, stately...this damask wallcovering speaks volumes about your good taste. The over scale pattern would be bold were it not for its gentle coloration. The ground looks like a rich woven fabric while the overlay is a delicate raised design. Its nearest relatives are Small Decorative Scroll and Floral & Ornamental so go ahead and mix and match.

BAROQUE ALLOVER

When seeking a timeless wallcovering for your traditional home go for Baroque Allover! The curling design of flowers and leaves, fleur-de-lis and beads is appropriate in nearly any décor. The filigree pattern is superimposed on a crackled background that suggests aged plaster. Companion wallcoverings include Bouquet and Texture with Crackle.

JACOBEOAN DAMASK

This fine wallcovering makes an impressive statement with its large deeply dimensional pattern. The floral medallions are linked by scrolling, fanciful leaves and blossoms. The genteel neutral colors are embellished by touches of muted metal and coordinate beautifully with Jacobean Stripe and Jacobean Trail. This divine pattern is appropriate in a vintage seaside estate or in your family home.

JACKOBEAN STRIPE

Wide stripes of raised feathery foliage alternate with narrow ones in a contrasting shade. The bold vertical pattern is presented in soft neutral colors. This fine wallcovering is a modern classic with traditional roots and makes a handsome companion to Jacobean Damask and Jacobean Trail.

JACKOBEAN TRAIL

Whimsical blossoms and feathery leaves combine to create a traditional Jacobean wallcovering. Available in gently muted shades, this classic design with an old world look is versatile enough for most any setting. The raised pattern and neutral color combinations marry well with Jacobean Damask and Jacobean stripe.

ORNAMENTAL TOILE

Perfect for your manor house by the sea or your town home in the city! Generous of scale, this ornate wallcovering reminiscent of an unframed damask is presented in soft antiqued colors on a crackled field resulting in an elegant cosmopolitan look. Stunning solo, it coordinates beautifully with Ornamental Toile Spot.

ORNAMENTAL TOILE SPOT

On a background of mottled and variegated color resembling crackled antique plaster, a design of stylized fleur-de-lis makes its appearance. In muted color combinations with barely there mineral sheen, this lovely wallcovering speaks of refinement alone or in tandem with Ornamental Toile.

WOVEN DAMASK WITH STRIPE

There is a stately formality to this striking wallcovering with a fabric appearance. Subtle striping, both wide and narrow, is overshoot with an elegant damask design in a contrasting shade. A barely there sheen reflects the light and illuminates the vertical pattern. Its sister stripe, and a lovely correlate, is Woven Stripe.

WOVEN STRIPE

Simply classic...and classically simple. Any time, any where this stripped wallcovering adds a designer treatment to the room. The alternating wide and narrow stripes in soft coordinating colors, nebulous clouded treatment, and the vertical and horizontal faux threads all combine to create the look of a fabric covered wall. Use it solo or with its more ornate companion, Woven Damask with Stripe.

FLORAL TRAIL

Dream of a cottage by the sea with flowers nodding in the ocean breeze. Bring to life a perennial garden with this delightful wallcovering. Enjoy a profusion of pastel flowers on a woven look background all year long inside your home. No green thumb needed. Its companions are Nautical Stripe and Floral Bouquet.

NAUTICAL STRIPE

The crispness of vertical stripes is gentled by the use of neutral and pastel coloration. Random width, from pencil thin to two inch wide, this vertically patterned wallcovering mimics fabric and is at home in virtually any room. It also plays well with Floral Bouquet for a very pretty mix.

FLORAL BOUQUET

An abundance of pastel blossoms brighten this cheery wallcovering. Like an eternal summer, these nosegays of delicate flowers on a faux woven field will never drop their pretty petals. Use it alone or pair it with Floral Trail or Nautical Stripe for a designer look.

BOUQUET

Plucked from a seaside cottage garden, an armful of flowers makes a beautiful bouquet. This vintage look wallcovering with a crackled semi-shiny field and bunches of pastel blooms creates a charming look of yesteryear and generations past. Pair with Baroque Allover or Texture with Crackle for a coordinated look.

SMALL DECORATIVE SCROLL

Almost dainty, nearly delicate, this sinuous scrollwork pattern proves the saying “Less is more”. The graceful curvature of the vines on a solid field shot with muted metallic lines can adapt to most any décor. It partners quite well with Floral & Ornamental.

FLORAL & ORNAMENTAL

Baroque in feeling, ornate in design, yet this floral wallcovering still maintains a delicate, almost dainty persona. The large bouquets and connecting scrollwork are beautifully executed in charming pastels. The open field is shot through with soft metallic accents. This design will elicit approval from all who see it!
